Party involved (DFP) / JISC member submitting the form:																		
Reference number and title of the proposed JI activity:	0211 Utilization of coke gas with electricity generation by two 6 MWe CHP at "ZaporozhCox Plant"																	
Type of JI activity:	<input checked="" type="checkbox"/> large scale <input type="checkbox"/> small scale <input type="checkbox"/> LULUCF <input type="checkbox"/> PoA/JPA																	
Background																		
<ol style="list-style-type: none"> 1. The requirements of Article 6 of the Kyoto Protocol, the JI guidelines and further relevant requirements defined by the CMP or the JISC with regard to determinations pursuant to paragraph 33 of the JI guidelines have to be met and appropriately dealt with by the accredited independent entity (AIE). 2. Project participants shall submit to an AIE a JI PDD/PoA DD that contains all information needed for the determination of whether the proposed JI activity fulfills the conditions specified in the questions below, as provided in paragraph 31 of the JI guidelines. 3. The AIE shall determine whether the proposed JI activity meets the conditions of paragraph 33 of the JI guidelines, as specified in the questions below. 4. The AIE shall make its determination publicly available through the secretariat, together with an explanation of its reasons, including a summary of comments received and a report of how due account was taken of these, in accordance with paragraph 34 of the JI guidelines. 5. Where applicable, the AIE shall take into consideration paragraphs 26-39 of the procedures for programmes of activities under the verification procedure under the JISC (JI PoA procedures).

Please describe in detail the reasons for requesting the review, including the specific requirements in the JI guidelines that are not fulfilled, and attach supporting documentation, if appropriate.																		

There are contradictions within and between PDD and determination report (DR) regarding the start date of the crediting period. While DR p.33 (A4.3.2.) states a crediting period start date of 01.01.2008 the PDD p.23 & p.5 refer to a crediting period start date of 01.02.2008 (and so does the DR p. 41, C.3.1.) The basis for the annual ER calculations is therefore not consistent.

- It is not clear that the project could not result in an overall increase in production of COG, and hence an increase in fossil fuel emissions, in order to increase steam generation and thereby electricity generation and ERU revenues from the new CHP units.

- It is essential that no natural gas or other fossil fuel is mixed with COG in the project, otherwise project emissions would not be zero.

- The amount of COG delivered to Zaporozhstal should be monitored and compared with historical average deliveries to ensure that any decrease in externally delivered COG is not greater than that caused by the difference in steam input and output through the new units.
