

**Annex 4****SCOPE OF THE REVIEW AND COMPOSITION OF THE REVIEW TEAM:  
0040. REHABILITATION OF DOLNA ARDA HYDROPOWER CASCADE, BULGARIA**

1. The Joint Implementation Supervisory Committee (JISC) decided to undertake a detailed review of the determination regarding the project design document for “0040. Rehabilitation of Dolna Arda Hydropower Cascade, Bulgaria”.
2. The JISC decided that the scope of the review shall cover:
  - (a) Demonstration of additionality, in particular the substantiation of the investment and financial barriers, on the basis of the guidance on criteria for baseline setting and monitoring;
  - (b) Effects of the new unit (5) on the existing units (1-4) of the Studen Kladenets hydropower plant, in particular also their reflection in the monitoring plan;
  - (c) Consistency in the ex ante estimation of the project emissions and relevant provisions in the monitoring plan;
  - (d) Effects of the project on pumped storage hydropower plants.
3. The JISC decided that the review team shall be composed of two members, including alternate members, of the JISC, Mr. Blanson Henkemans (lead member of the team) and Mr. Gasperic, and two outside experts, selected from the roster of experts set up, inter alia, for this purpose.
