**Request for clarification on Track switching and ITL number(s)**

Dear Madam/Sir,

We are writing to submit a request for clarification regarding "Track switching" and respective ITL numbers.

Please confirm if we understand correctly that after the determination under Track 2 has been deemed final, it is still possible for project participants to switch to the national procedures under Track 1 for the verification and issuance of ERUs (as long as the Host country fulfils all requirements for Track 1 eligibility). Furthermore, is it correct that project participants may switch back to Track 2 for the verification and issuance of ERUs at any moment during the monitoring period?

Please also kindly confirm if we understand correctly that for such a "Track switching", project participants would need to have two ITL numbers. This is what we understood from the footnote at the JI project overview on the UNFCCC website: "\*\*\* Projects switching "Tracks" appear with different ITL project IDs." (e.g. for the Ukrainian projects under

[http://ji.unfccc.int/JI\\_Parties/DB/E6OJWRL8OP3UCSQ2FVQZX7TT3CL1PV/viewDFP](http://ji.unfccc.int/JI_Parties/DB/E6OJWRL8OP3UCSQ2FVQZX7TT3CL1PV/viewDFP))

We understand that one ITL number is needed for ERU transfer in case the verification is done under Track 2 and another ITL number is needed for ERU transfer in case the verification is done under Track 1.

Please kindly clarify the process of how projects participants can receive a second ITL number for Track 1 in case the project determination has been previously deemed final under Track 2.

Yours sincerely,

Eliano Russo
