

**Annex 3****DRAFT CLARIFICATION REGARDING THE PUBLIC AVAILABILITY OF DOCUMENTS
UNDER THE VERIFICATION PROCEDURE UNDER THE
JOINT IMPLEMENTATION SUPERVISORY COMMITTEE (VERSION 02)****Note by the secretariat**

1. With a view to further streamlining the verification procedure under the JISC, in particular regarding the communication of the JISC with project participants and the inclusion of additional project participants or Parties involved in a JI project, the secretariat, in consultation with the Chair of the JISC, prepared:
 - (a) Draft modalities of communication of project participants with the JISC (annex 1 of the annotations to the proposed agenda of the eighth meeting of the JISC); and
 - (b) Draft procedures for including additional project participants or Parties involved in JI projects after final determination under the verification procedure under the JISC (annex 2 of the annotations to the proposed agenda of the eighth meeting of the JISC).
2. On this basis, the secretariat, in consultation with the Chair of the JISC, also prepared a draft version 02 of the clarification regarding the public availability of documents under the verification procedure under the JISC (annex 3 of the annotations to the proposed agenda of the eighth meeting of the JISC).

¹ Sixth meeting of the Joint Implementation Supervisory Committee

Joint Implementation Supervisory Committee

1. With a view to ensuring the consistency of the submissions and streamlining the publication of documents under the verification procedure under the Joint Implementation Supervisory Committee (JISC), the JISC requests the secretariat to perform a completeness check of the documents submitted by accredited independent entities (AIEs) to be made publicly available on the UNFCCC JI website in order to ensure that the requirements listed in paragraphs 2 and 3 below are met.

2. When making a project design document (PDD) and any supporting documentation publicly available on the UNFCCC JI website in accordance with paragraph 32 of the annex to decision 9/CMP.1 (hereinafter referred to as JI guidelines), inter alia, the following requirements shall be met:

- (a) The correct version of the “joint implementation project design document form”, the “joint implementation land use, land-use change and forestry project design document form”, the “joint implementation project design document form for small-scale projects” or the “form for submission of bundled joint implementation small-scale projects”, as applicable, shall be used;
- (b) All documents submitted shall be correctly referenced;
- (c) All documents and annexes listed in the table of contents of the PDD shall be submitted;
- (d) All documents shall be submitted in English, unless an official translation into English is provided;
- (e) All the information marked as confidential or proprietary shall be submitted. Information used to determine whether reductions in anthropogenic emissions by sources or enhancements of anthropogenic removals by sinks are additional, to describe the baseline methodology and its application, and to support an environmental impact assessment referred to in paragraph 33 (d) of the JI guidelines, shall not be considered as proprietary or confidential.

3. When making a determination and any supporting documentation publicly available on the UNFCCC JI website in accordance with paragraph 34 of the JI guidelines, inter alia, the following requirements shall be met:

- (a) The correct version of the “joint implementation project design document form”, the “joint implementation land use, land-use change and forestry project design document form”, the “joint implementation project design document form for small-scale projects” or the “form for submission of bundled joint implementation small-scale projects”, as applicable, shall be used;
- (b) The correct version of the “JI determination report form” shall be used;
- (c) All documents submitted shall be correctly referenced;
- (d) All documents and annexes listed in the table of contents of the PDD and in the list of documents presented together with the determination report form shall be submitted;
- (e) All the documents shall be submitted in English, unless an official translation into English is provided;

Joint Implementation Supervisory Committee

- (f) All the information marked as confidential or proprietary shall be submitted. Information used to determine whether reductions in anthropogenic emissions by sources or enhancements of anthropogenic removals by sinks are additional, to describe the baseline methodology and its application, and to support an environmental impact assessment referred to in paragraph 33 (d) of the JI guidelines, shall not be considered as proprietary or confidential;
 - (g) The project approvals submitted shall be unconditional and in writing and clearly identify the project for which the approval is granted. An official translation of an approval into English shall be provided, in case the original is not issued in English;
 - (h) Project participants have to be identified consistently throughout the whole submission of a determination. An authorisation of a legal entity to participate in a JI project shall clearly identify the legal entity listed in the PDD, for which the authorisation is granted. An official translation of an authorisation into English shall be provided, in case the original is not issued in English. **The modalities of communication shall clearly identify the project participant(s) nominated as focal point(s) for handling communications with the JISC, provide contact information² and be signed by all project participants.**
4. The completeness check referred to in paragraph 1 above does not constrain the JISC members' responsibility to decide whether to request a review in accordance with paragraph 35 of the JI guidelines.

² **The tabular format for providing contact information on project participants included in the JI project design document forms as an annex should be used in modalities of communication. The contact details shall include an email address.**
