COVER NOTE

1. Procedural background

1. The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP) invited the Joint Implementation Supervisory Committee (JISC) to continue to keep the joint implementation management plan under review and to make adjustments to it as necessary to ensure the efficient, cost-effective and transparent functioning of joint implementation.

2. Purpose

2. The workplan of the JISC for 2014 provides an overview of the issues to be considered by the JISC at each meeting. This allows planning the workload of the JISC for each JISC meeting and ensures efficient use of meeting time. The document indicates the work planned for the JISC at the meetings in 2014, based on the business plan and the JI-MAP for 2014–2015.

3. Key issues and proposed solutions

3. The workplan provides information on the type of products the JISC will consider at each meeting, actions to be taken by the JISC. Products for consideration of the JISC to implement the recent mandates provided by the CMP at its ninth session to the JISC have been also incorporated in this plan.

4. Impacts

4. The workplan will ensure efficiency and transparency of the decision-making process and facilitate the management of the JISC workload.

5. Proposed work and timelines

5. It is proposed that the workplan be considered by the JISC at each meeting to take note of updates based on new mandates of the JISC and the status of work during the year.

6. Recommendations to the JISC

6. The secretariat recommends that the JISC approve this draft workplan for 2014 and request the secretariat to update the workplan for consideration of the JISC at each meeting, based on new mandates arising from the meetings and on the status of work.
