<b>Verification opinion</b>			
<p>Please provide a verification opinion (or a reference to the verification opinion in one of the documents attached), including a statement regarding materiality and level of assurance, in accordance with the Standard for applying the concept of materiality in verifications</p> <p>TÜV Rheinland Group/TÜV Rheinland Ukraine has performed the initial and first periodic verification of the emission reductions generated by the JI project "Dismantling of waste heap # 2 at mine # 22 "LISOVA" (ITL Project ID UA1000329) for the period from 23/10/2009 till 29/02/2012.</p> <p>The project participants are responsible for the collection of data in accordance with the monitoring plan and the reporting of emission reductions generated by the project.</p>			

It is responsibility of TÜV Rheinland Group/TÜV Rheinland Ukraine to express an independent verification opinion - conclusion on the verified amount of emission reductions generated by the project and reported by the project participants through the monitoring report, version 2.0 dated 21/05/2012.

TÜV Rheinland Group/TÜV Rheinland Ukraine has assessed the monitoring report on the basis of the monitoring plan contained in the registered project design document version 2.0 dated 03/05/2012 and the monitoring report version 2.0 dated 21/05/2012.

The verification included the assessment of:

- project implementation in accordance with the project design document (PDD);
- compliance with the monitoring plan;
- calculation of emission reductions and expression of a conclusion with a reasonable level of assurance about whether the reported emission reductions data are accurate and free of material errors, omissions, or misstatements;
- quality and management of data and verification that reported emission reductions data is sufficiently supported by evidence.

TÜV Rheinland Group/TÜV Rheinland Ukraine verification approach draws on an understanding of the risks associated with reporting of GHG emission data and the controls in place to mitigate these. TÜV Rheinland Group/TÜV Rheinland Ukraine planned and performed the verification by obtaining evidence information and explanations that TÜV Rheinland Group/TÜV Rheinland Ukraine considers necessary to give reasonable assurance that reported emission reductions are fairly stated, accurate and free of material errors, omissions, or misstatements.

In TÜV Rheinland's Group/TÜV Rheinland's Ukraine opinion the emission reductions generated by the JI project "Dismantling of waste heap # 2 at mine # 22 "LISOVA" (ITL Project ID UA1000329) for the period from 23/10/2009 till 29/02/2012 are fairly stated, accurate and free of material errors, omissions, or misstatements in the monitoring report, version 2.0 dated 21/05/2012. The verification of the project resulted in 11 Correction Action Requests and 6 Clarification Request (refer to Annex A to Verification report).

The GHG emission reductions were calculated correctly on the basis of the registered project design document version 2.0 dated 03/05/2012.

TÜV Rheinland Group/TÜV Rheinland Ukraine is able to verify that the emission reductions generated by the JI project "Dismantling of waste heap # 2 at mine # 22 "LISOVA" (ITL Project ID UA1000329) for the period from 23/10/2009 till 29/02/2012 amount 1 141 813 tonnes of CO<sub>2</sub> equivalent.

<b>The <u>project design</u> was revised in the current monitoring period, after the determination has been deemed final</b>		<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<b>If yes, please <u>list all revisions</u> to the project design and express a determination opinion (or provide a reference to an attached document containing the required information)</b>		<input checked="" type="checkbox"/> Not applicable	
<b>If project design was revised in the current monitoring period, <u>please confirm</u> that conditions defined in JI guidelines (paragraph 33) are still met</b>		<input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>If project design was revised in the current monitoring period, <u>please confirm</u> that the changes do not alter the original determination opinion</b>		<input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>If project design was revised in the current monitoring period, <u>please confirm</u> that:</b> (a) Physical location of the project has not changed (b) If emission sources have changed, they are reflected in an updated monitoring plan (c) Baseline scenario has not changed (d) Changes are consistent with JI specific approach or CDM methodology upon which the determination was prepared for the project		<input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>The <u>monitoring plan</u> was revised in the current monitoring period</b> <i>If yes, please specify for which technologies and measures under each type of JPA the monitoring plan was revised</i>		<input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No

(applicable to JI PoA only)

The current revisions to the monitoring plan improve the accuracy and/or applicability of information collected, compared to the original monitoring plan without changing conformity with the relevant rules and regulations for establishing monitoring plans

N/A       Yes       No

**List of documents attached to the verification report form**

Please attach relevant documents used in the verification process and mark below accordingly

- Verification report**
- Written approvals by the Parties involved, if applicable**
- Other relevant documents:**
  - Document listing all revisions to the project design, if applicable
  - Determination that the revisions to the project design, if applicable, do not alter the original determination opinion and that the conditions defined by paragraph 33 of the JI guidelines are still met
  - Revised monitoring plan, if applicable
  - Determination that the revisions to the monitoring plan, if applicable, improve the accuracy and/or applicability of information collected, compared to the original monitoring plan without changing conformity with relevant rules and regulations for establishing monitoring plans
  - Sampling plan, if applicable (*JI PoA only*)
  - Any other documents (please list): Estimation of greenhouse gas emission reductions in Excel format

The AIE herewith declares that undertaking the verification for the JI activity referred to above does not constitute a conflict of interest which is incompatible with the role of an AIE
