

JOINT IMPLEMENTATION

JI-JISC39-AA-A01

Joint Implementation Supervisory Committee workplan for 2016

Version 02.0

United Nations
Framework Convention on
Climate Change

COVER NOTE

1. Procedural background

1. The Joint Implementation Supervisory Committee (hereinafter referred to as the JISC) at its thirty-eighth meeting approved the workplan of the JISC for 2016. This work is in line with the request of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP) to the JISC to ensure sufficient infrastructure and capacity for the mechanism's use by Parties for as long as needed, and to keep the joint implementation management plan under review, making necessary adjustments to ensure the efficient, cost-effective and transparent functioning of the joint implementation.

2. Purpose

2. The workplan of the JISC for 2016 provides an overview of the issues to be considered by the JISC at each meeting. This allows planning the workload of the JISC and ensures efficient use of meeting time. The document indicates the work planned for the JISC at the meetings in 2016, based on the joint implementation two-year business plan and management plan 2016–2017.

3. Key issues and proposed solutions

3. The highlighted change to the approved workplan is an additional concept note related to an analysis for efficiency measures for the operation of the JISC, prepared by the secretariat for JISC 39.
4. The consideration of products and the approval of related recommendations to the CMP presented to the JISC at this meeting completes the work mandated by the CMP and planned by the JISC for this year.

4. Impacts

5. The updated workplan will ensure efficiency and transparency of the decision-making process and facilitate the JISC's management of its workload.

5. Proposed work and timelines

6. No further work is planned for 2016 after JISC 39, as all mandates have been completed.

6. Recommendations to the JISC

7. The secretariat recommends that the JISC take note of the updated workplan.

Joint Implementation Supervisory Committee workplan 2016
