**LETTER OF APPROVAL**

The undersigned, as a legal and authorized representative of the Republic of Lithuania (the host country), referring to the Joint Implementation project „Rudaiciai wind power station park project“ (hereinafter referred to as the JI Project) of UAB „Vėjų spektras“ (hereinafter referred to as the project proponent), herewith declares that:

1. The Republic of Lithuania ratified the Kyoto Protocol of United Nations Framework Convention on Climate Change.
2. In order to participate in the activities under the Article 6 of the Kyoto Protocol, the Republic of Lithuania is aware that it should comply with the participation and eligibility requirements as stated in the Kyoto Protocol and the relevant rules, decisions, guidelines, modalities and procedures adopted thereunder. The Republic of Lithuania intends to comply with the above mentioned requirements.
3. The Republic of Lithuania recognises the JI Project to be a Joint Implementation project in accordance with Article 6 of the Kyoto Protocol and its underlying decisions, relevant rules, guidelines, modalities and procedures adopted thereunder.
4. The Republic of Lithuania authorises the project proponent and any future owner of the JI project to generate claims on Emission Reduction Units (ERUs), by operation of the JI project, in accordance with the Article 6 of the Kyoto Protocol and to participate in actions leading to the generation of ERUs from the JI Project and the issuance and transfer of ERUs generated by the JI Project.
5. The Republic of Lithuania will issue and transfer, free of any taxes, levies or charges, to the Netherlands, the contracted amount of ERUs corresponding to the emission reductions generated by the JI Project during the period of 2008-2012 and sold to the SIA „E kvotas“, in accordance with the

Article 6 of the Kyoto Protocol. The transfer of ERUs is irrespective of any legal or other transfer of the JI Project to third parties.

6. The Republic of Lithuania is aware that the project proponent intends to sell ERUs generated by the JI Project to SIA „E kvotas“.

7. The Republic of Lithuania agrees that in case it allocates emission allowances to any installation affected by the JI Project under the scheme for greenhouse gas emission allowance trading within the European Community or includes the JI Project in its national allocation plan, it shall take into account the early action by the JI Project to reduce greenhouse gas emissions and shall make any necessary adjustments in order to avoid double counting of emission allowances.
