

# Joint Implementation Roundtable

Revision of the JI guidelines

Wrap-up session I

Functions and membership of the governing body

Langer Eugen

Bonn Germany, 9 August 2012

## Break-out session I: Functions and membership of the governing body

Main issues discussed:

- Role of GB vs role of Host Party.
- Assessment by GB of the national process
- Membership of the governing body
- Appeals against suspension of issuance

## Break-out session I: Functions and membership of the governing body

---

### Action points / Proposals:

- Guidelines should ensure a balance between the role of the GB and the role of the parties
- Specify in para. 5b what would be mandatory/non-mandatory standards and best practices for each of the areas.
- Para. 5f:
  - a) Clarify whether the GB will be assessing the conformity of the national laws with the mandatory standards it has adopted or their implementation
  - b) Clarify how the projects assessed will be selected: define clear criteria to avoid discrimination
  - c) Proposal to get rid of 5 f) language “conformity of the process” -too constrictive

## Break-out session I: Functions and membership of the governing body

### Action points / Proposals:

- Provide for a possibility of an appeal against the GB decisions of suspension of issuance of ERUs by a host party
- Membership:
  - a) Clarify how nominations from UNFCCC admitted observer organizations will be done.
  - b) Clarify that only parties ratifying KP2 can nominate members of GB.
  - c) Composition of GB should reflect equal representation/regional distribution as per UN rules
- The framework setting should be done by JISC but the baseline setting by parties
- JISC to discuss/decide on making concept note available
