**JI Roundtable  
Engagement with Stakeholders  
to Promote JI**

Andrei Marcu  
Head of Policy and Regulatory Affairs

# What are trying to address ?

- Enhancing its current efficiency under Art 6
- A new place in anew architecture
- Can collaboration increase and be useful for these two objectives ?
- What forms can this collaboration take ?

Ideas should be applied to Art 6 with a view to influence the broader architecture

# Proposals

- **Compliance buyers may prefer CERs for reputational reasons**
- More active dialogue with stakeholders to increase acceptance of JI environmentally, new methodologies
  - With private sector
  - Environmental NGOs
- Discussions of national approval processes
- National roundtables with national and international stakeholders
- **Stakeholder participation in JISC processes**
- Establish Policy Advisory Panels for Private Sector and Environmental Organizations
- Advisory Panels to be business organized and administered such as BIAC for OECD.
- Self financed and self selected representation

# Proposals

- **Establish formal input to the JISC policy process**
- What is the status of the Roundtable ?
- How will the input be considered ?
- **Establish formal direct contact on project specific matters**
- Initiated by the regulator
- Ex-ante and ex-post decisions
- **Work with private sector to enhance awareness and capacity building**
- UNFCCC and Secretariat endorsed RT at the national level
- Hold increasing number of events to explain national processes to investors
  - At Carbon Forums
  - With PS organizations
  - Closer cooperation with national authorities

# Proposals

- **Enhance buy-in for the role of JI post 2012**
  - Organize events with national business organizations on the benefits of JI
  - Build support with business and environmental NGOs for JI post-2012 to promote
    - Market liquidity
    - Environmental integrity through consistency
  - Develop a model for JI in a new architecture that allows for fungibility
  - Enter into dialogue with EU and other Parties that may see use for domestic offsets
  - How does JI fit with other alternatives for JI countries

# Proposals

- **Identify projects outside traditional JI countries**
  - Hold workshops with sectoral associations in non ETS covered sectors
- **Better communication through web site and electronic media**
  - Press conference after each JISC meeting
- **Develop more bottom up methodologies in a collaborative way**
